

Muhammad Fathi Putera Bin Mohd Ramli

Bandar Seri Jempol, Negeri Sembilan • fathiputera@gmail.com • +601132632003

Objective

Recent graduate with a degree in Systems Engineering who is eager to learn and test new technology, frameworks, and languages looking for a position in a company where I can launch my career and build a valuable skill set.

Education

Universiti Teknologi MARA Bachelor of Information Technology (Hons.) Information Systems Engineering	Jasin, Melaka 2019 - 2022
Universiti Teknologi MARA Diploma In Computer Science.	Segamat, Johor 2016 - 2018

Experience

APLIKASI KREATIF TECHNOLOGIES

Freelance Web Developer

Johor Bahru, Johor (Remote)
April 2022 – May 2022

- Created a data mapping between two databases and developed a script that allows data migration to merge from an old system to a new one.
- Improved client's website by adding localization features which would enable users to choose either Malay language or English language of the same website.
- Modified the website's user interface based on requirements given by the client.

APLIKASI KREATIF TECHNOLOGIES

Software Engineer Intern

Johor Bahru, Johor (Remote)
October 2021 – March 2022

- Acquired knowledge of Laravel framework, Tailwind CSS, Livewire and Jetstream.
- Obtained a skill in configuring DigitalOcean server and RunCloud as the server management software.
- Created a Laravel project based on HTML sample given by the client and linked the project to a provided database to display the data.
- Configured Laravel Jetstream to handle login and customized its interface based on client needs.
- Implemented a searching interface using Laravel livewire, created a function that allows the user to search by their name or IC and a function to filter the result by date using a date picker.

UNIVERSITI TEKNOLOGI MALAYSIA

Computer Science Intern

Skudai, Johor
July 2018 – September 2018

- Created a safety workplace video for the Office of Student Affairs.
- Developed an image bank website using blogger.
- Designed the poster for "Konvensyen Mahasiswa & Mahasiswa OKU 2018, SDADIC'18".
- Involved in the "Biasiswa Endowment UTM" system as a system tester.

Leadership & Activities

Participant In 2021 Hacktoberfest
